

Clinic Note - Date:

Pt. Name:

PRESENTS

Air contrast barium enema
Barium enema
MRI of the abdomen and pelvis
MRI of the pelvis
CT scan of the abd. and pelvis
CT pelvis, CT chest, PET scan
Chest x-ray, Upper GI
Upper GI and SB follow through
Endorectal ultrasound
Anal manometry
Defogram
Abdominal ultrasound
IVP, Venous doppler studies
Lumbar-sacral spine films
Sed rate, Amylase
CBC, CEA
a change in bowel habits
a change in bowel habits wwl
a family history of colon cancer
a family history of rectal cancer
a hernia
a painful anal mass
a painful rectal mass
a polyp on flexible sigmoidoscopy
a positive hemocult stool
a rectal mass
a screening colonoscopy
abdominal pain with weight loss
an abnormal barium enema
an abnormal CT scan
an anal mass
an incisional hernia
anemia
anterior anal ulcer
anterior fistula in ano
anterior perianal abscess
anterior perirectal abscess
bleeding described as bmws
colitis
colon cancer
colonic Crohn's disease
constipation
cramping abdominal pain
Crohn's disease
diarrhea
diverticulitis
diverticulosis
dull abdominal pain
episodic abdominal pain
fecal soilage
fistula in ano
generalized abdominal pain
grade i hemorrhoids
grade ii hemorrhoids
grade iii hemorrhoids
grade iv hemorrhoids
incontinence
incontinence to flatus
incontinence to liquid stool
incontinence to solid stool
intra-anal condyloma
left lateral fistula in ano
left lateral, thrh
left lower qap
left perianal abscess
left perirectal abscess
left upper qap
mild colitis
mild proctitis
moderate colitis
moderate proctitis
narrowing of stools
nausea

nausea with vomiting
no abnormalities
normal examination
painful rectal bleeding
painless rectal bleeding
pancolitis
pedunculated polyp
perianal abscess
perianal condyloma
perirectal abscess
polyp
posterior anal ulcer
posterior fistula in ano
posterior perianal abscess
posterior perirectal abscess
prb in the toilet
prb on the toilet paper
proctitis
prolapsed hemorrhoids
prolapsed, gangh
prolapsing hemorrhoids
pruritus ani
purulent rectal drainage
rectal cancer
rectal Crohn's disease
rectal drainage
rectal pain
rectal prolapse
recurrent diverticulitis
right and left lower qap
right anterolateral, thrh
right fistula in ano
right lower qap
right perianal abscess
right perirectal abscess
right posterolateral, thrh
right upper qap
sessile polyp
severe colitis
severe proctitis
sharp abdominal pain
small bowel Crohn's disease
thrombosed hemorrhoids
ulcerative colitis
uc confined to the rectum
uc with mild dysplasia
uc with moderate dysplasia
uc with severe dysplasia

ONSET

EXACERBATED BY

hard bowel movement
fatty foods, standing, sitting
lying, movement
diarrhea, exercise

FINDINGS

a change in bowel habits
a change in bowel habits wwl
a family Hx of colon cancer
a family Hx of rectal cancer
a hernia
a mass in the lower pow
a mass in the mid pow
a mass in the upper pow
a painful anal mass

a painful rectal mass
a polyp on flexible sigmoidoscopy
a positive hemocult stool
a rectal mass
a screening colonoscopy
abdominal abscess
abdominal pain wwl
abnormal
abnormally hasp
abnormally lasp
an abnormal barium enema
an abnormal CT scan
an anal mass
an incisional hernia
anemia
anemic
anterior anal ulcer
anterior fistula in ano
anterior perianal abscess
anterior perirectal abscess
bleeding described as bmws
bloating
colitis
colon cancer
colonic Crohn's disease
congestive heart failure
constipation
continuing abdominal pain
continuing bloating
continuing fecal soilage
continuing fever
continuing incontinence
continuing nausea
continuing nausea and vomiting
continuing rectal bleeding
continuing rectal drainage
continuing rectal pain
continuing vomiting
continuing wound drainage
cramping abdominal pain
Crohn's disease
degenerative joint disease
diarrhea
diverticular abscess
diverticulitis
diverticulosis
dizziness
dull abdominal pain
elevated
episodic abdominal pain
erythema of the lower pow
erythema of the mid pow
erythema of the upper pow
erythema of the wound
fecal soilage
fever
fdit ascending colon
fdit cecum
fdit descending colon
fdit distal transverse colon
fdit hepatic flexure
fdit mid transverse colon
fdit proximal transverse colon
filling defect in the rectum
filling defect in the sigmoid colon
filling defect in the splenic flexure
fistula in ano
gallstones
generalized abdominal pain
grade i hemorrhoids
grade ii hemorrhoids
grade iii hemorrhoids
grade iv hemorrhoids

hepatic metastasis
hmot left lobe of the liver
hmot right lobe of the liver
incontinence
incontinence to flatus
incontinence to liquid stool
incontinence to solid stool
infiltrate of the left lung
infiltrate of the right lung
icx of the ascending colon
icx of the cecum
icx of the descending colon
icx of the distal transverse colon
icx of the duodenum
icx of the ileum
icx of the jejunum
icx of the mid transverse colon
icx of the proximal transverse colon
icx of the rectum
icx of the sigmoid colon
icx of the terminal ileum
internal rectal prolapse
intra-anal condyloma
left lateral fistula in ano
left lateral, thrh
left lower qap
left perianal abscess
left perirectal abscess
left renal cyst
left renal cysts
left upper qap
lethargy
locally recurrent cancer
low
mild colitis
mild proctitis
minimal abdominal pain
minimal bleeding from the wound
minimal drainage from the wound
minimal purulent drainage ftw
minimal wound pain
minimal wound separation
moderate abdominal pain
moderate bleeding from the wound
moderate colitis
moderate drainage from the wound
moderate proctitis
moderate purulent drainage ftw
moderate wound pain
moderate wound separation
narrowing of stools
nausea
nausea with vomiting
no abnormalities
no appetite
normal
normal examination
obstructed left ureter
obstructed right ureter
painful rectal bleeding
painless rectal bleeding
pancolitis
pmit body of the pancreas
pmit head of the pancreas
pmit tail of the pancreas
paradoxical motion of the levators
pedunculated polyp
pelvic mass
pelvic recurrence of cancer
perianal abscess
perianal condyloma
perianal tags
perirectal abscess
polyp

poor appetite
posterior anal ulcer
posterior fistula in ano
posterior perianal abscess
posterior perirectal abscess
prb in the toilet
prb on the toilet paper
proctitis
prolapsed hemorrhoids
prolapsed, gangh
prolapsing hemorrhoids
pruritus ani
pulmonary edema
pulmonary metastasis
pmit left lung
pmit right lung
purulent rectal drainage
rectal cancer
rectal Crohn's disease
rectal drainage
rectal pain
rectal prolapse
rectocele
recurrent diverticulitis
retrorectal cyst
retrorectal mass
right and left lower qap
right anterolateral, thrh
right fistula in ano
right lower qap
right perianal abscess
right perirectal abscess
right posterolateral, thrh
right renal cyst
right renal cysts
right upper qap
sessile polyp
severe abdominal pain
severe bleeding from the wound
severe colitis
severe drainage from the wound
severe proctitis
severe purulent drainage ftw
severe wound pain
severe wound separation
sharp abdominal pain
small bowel Crohn's disease
soreness
sphincter defect
stone of left kidney
stone of left ureter
stone of right kidney
stone of right ureter
stricture of the ascending colon
stricture of the descending colon
stricture of the distal transverse colon
stricture of the mid transverse colon
stricture of the proximal transverse colon
stricture of the rectum
stricture of the sigmoid colon
swelling of the lower pow
swelling of the mid pow
swelling of the upper pow
swelling of the wound
thrombosed hemorrhoids
uc confined to the rectum
uc with mild dysplasia
uc with moderate dysplasia
uc with severe dysplasia
ulcerative colitis
vfo left common femoral vs
vfo right common femoral vs
vomiting

PLAN

an abdominal ultrasound
 an abdominoperineal resection
 an amylase
 an anal manometry
 an anoplasty
 a barium enema
 a basic metabolic profile
 a CBC
 a CEA
 a chest x-ray
 a clostridium difficile titer
 a colon resection
 a colonoscopy
 a colonoscopy and hem. ectomy
 a coly and eaulis
 a coly and right hemicolectomy
 a coly and sigmoid colectomy
 a coly and left hemicolectomy
 a coly and low anterior resection
 coly and abdominoperineal resection
 coly and tac with ileorectal anas.
 a colonoscopy and hemorrhoidopexy
 a colonoscopy and subtotal colectomy
 a coly and exam under anes. w/ ex. bx
 a coly with proctocolectomy and JPLI
 a colonoscopy and fistulotomy
 a colonoscopy and proctocolectomy
 a tac with ileorectal anastomosis
 a comprehensive metabolic profile
 consult Dr.
 a CT scan of the abdomen and pelvis
 a CT scan of the chest
 a CT scan of the pelvis
 a defogram
 an endorectal ultrasound
 an examination under anesthesia
 an excision of an anal ulcer wlis
 a fistulotomy
 a hemorrhoidectomy
 a hemorrhoidopexy
 an inc. and drainage of perira
 a low anterior resection
 a lumbosacral x-ray
 an MRI of the abdomen
 an MRI of the pelvis
 a PET scan
 a pilonidal cystectomy
 a proctocolectomy
 a procto with IJPLI
 a right hemicolectomy
 a Sed rate
 a seton placement
 a sigmoid colectomy
 a sphincteroplasty
 a stool culture
 a sigmoid colectomy
 follow up in 1 week
 follow up in ___ weeks
 follow up in 1 month

STATUS POST
 hemorrhoidectomy
 excision of anal ulcer w/lis
 Hmdy with eaulis
 Fistulotomy
 incision and drainage of pa
 incision and drainage of paf
 Hemorrhoidopexy
 colonoscopy
 colonoscopy with fop
 coly with polypectomy
 right hemicolectomy
 left hemicolectomy
 Sigmoid colectomy
 low anterior resection
 subtotal colectomy
 total abdominal colectomy
 Abdominoperineal resection
 total abdominal cwjpli
 ileostomy takedown
 sigy with cahp
 colostomy takedown
 incisional hernia repair
 incisional hernia repair with mesh
 low anterior resection w/li

POST OP WOUND FINDINGS

looks good
 has minimal erythema
 has moderate erythema
 has severe erythema
 is minimally purulent
 is moderately purulent
 is grossly purulent
 is fluctuant
 is open
 is well healed
 has serosanguineous drainage
 has serous drainage
 has sanguineous drainage
 has a hematoma
 has a seroma
 is granulating well
